Software Engineer focused on Mobile and Web development. I was part of the design and development of scalable mobile and web applications using React, React Native, and TypeScript. I integrated complex APIs, created product-centered user experiences, and delivered key functionalities on high-impact platforms like Pago Fácil and Western Union, reaching millions of users.

PROFESSIONAL EXPERIENCE

Bizland Tech   **Buenos Aires, Argentina**
Mobile Developer - FinTech   *August 2024 – Actualidad*

- Participated in the development of the PSP (Payment Service Provider) solution, integrating multiple digital wallets and collaborating with external technical teams.
- Implemented new functionalities and key improvements in the **Pago Fácil** app, with over **1.5M downloads** and **500K monthly active users** on iOS and Android.
- Optimized performance and code quality on mobile platforms, reducing errors and improving overall stability.
- Designed intuitive and consistent interfaces using **Figma**, aligned with product objectives and focused on user experience.
- Resolved critical production incidents with agile response times, ensuring operational stability in real environments.
- *Main technologies: **TypeScript, React, React Native, Redux, Firebase, AWS, Figma, REST API, Cursor AI, Clean Architecture MVCP**.*

Hybeans S.A.   **Buenos Aires, Argentina**
Web and Mobile Developer - Event Tech   *May 2022 - August 2024*

- Developed end-to-end functionalities for an event management and real-time social interaction platform, available as a web app and mobile applications (iOS and Android).
- Participated in creating complete UI/UX flows using **Figma**, and backend integration with **Firebase**.
- Implemented a sales and order tracking system for buyers and sellers, optimizing user experience at events.
- Built an event calendar with real-time reservations and confirmation, as well as a digital ticketing system with on-site validation and app-based verification.
- Integrated social modules such as dynamic feeds, live chat, and push notifications to encourage user participation.
- Developed custom interactive maps to improve navigation and experience at in-person events.
- Worked in close collaboration with design, QA, and backend teams, meeting demanding deadlines under agile methodologies.
- Actively participated in deployments during live events, monitoring performance, ensuring stability, and resolving critical incidents in real-time.
- *Main technologies: **TypeScript, React, React Native, Mobx State Tree, Firebase, Figma, REST API, Clean Architecture MVVM**.*

Freelance   **Buenos Aires, Argentina**
Full Stack Developer   *November 2020 - May 2022*

- Designed and developed a custom inventory management system, using Spring Boot backend, PostgreSQL database, and cloud deployment through AWS.
- Created responsive websites for small organizations, implementing modern UI components and lightweight content management tools.
- Gathered and analyzed functional requirements directly with clients, ensuring scalable solutions adapted to their specific needs.
- Main technologies: ***TypeScript, React, Java, Redux, Firebase, AWS, REST API, Spring Boot, PostgreSQL.***

EDUCATION

Universidad Nacional de General Sarmiento – Buenos Aires, Argentina   **Buenos Aires, Argentina**
Higher Technical Degree in Computer Science   *2019 - 2022*

Universidad de Buenos Aires   **Buenos Aires, Argentina**
Bachelor's Degree in Philosophy   *2015 - 2019*

ADDITIONAL SKILLS

- **Languages & Frameworks:** React · React Native · TypeScript · JavaScript · Java · Spring Boot · Node.js · HTML · CSS
- **Backend & Databases:** Firebase (Firestore, Realtime DB, Auth) · PostgreSQL · MongoDB · REST APIs · AWS Serverless · SQL & NoSQL
- **Tools and Platforms:** Figma · Git · Jira · Xcode · Android Studio · App Store Connect · Google Play Console
- **Technical & Personal Competencies:** Technical leadership · Teamwork · Effective communication · Problem-solving · Focus on user experience
- **English level B2.**
